

Dear Aileen Glickman,

I'm sure that my mom told you, we have been raising money for cancer research. For every donation we gave people a nice laminated bookmark that are handmade and say "Cancer Research" with decorations. The bookmarks weren't very popular though, which made us feel good, people were donating because they cared instead of for a bookmark. We raised \$667.30 for Cancer Research.

All of our helpers were:

Patrece Savino (me)
Rhea Khera
Yasmeen Baki
Alexa Bronder
and
Prachi Mahableshwarkar

We are very proud that we can donate so much to The Century For The Cure. All of us had the goal of raising \$100 dollars but that is history. With public donations we raised about \$250. My dad and Curt each matched it so we got \$657.

We wanted to make life easier for these patients and we want to find a cure. We worked over the course of 5 days at school during lunch to raise money and we really surprised my mom with the first days earnings. I asked her to guess and she guessed \$30. Then I told her \$81. She was so proud. We hope that you will accept our donations and good luck with your organization!

Sincerely,
Patrece, Rhea, Alexa, Yasmeen, and Prachi

We also included a few bookmarks for all of you!

Patrece  Rhea  Alexa  yasmeen
Prachi
